

## w16-p1: finish displaySingleDrink\_xx.js

The screenshot shows a development environment with Visual Studio Code on the left and a web browser on the right. The VS Code editor displays the `displaySingleDrink_xx.js` file, which is part of a project for a cocktail application. The code includes HTML templates for a single drink and JavaScript logic for fetching drink data and rendering it. Red boxes highlight the HTML template for a single drink and the JavaScript logic for fetching and displaying drink data.

The browser on the right shows the rendered page for the 'Ace' cocktail. The page includes a drink image, the name 'Ace', and a detailed description: 'Shake all the ingredients in a cocktail shaker and ice then strain in a cold glass.' Below the description, there are sections for ingredients and instructions. Red boxes highlight the drink image, the drink name, and the ingredients list.

## w16-p2: finish addItems for Grocery demo
